

BROOKSIDE SOLAR
Franklin County, New York

3-DAY NOTICE OF INTENT TO FILE AN APPLICATION

Brookside Solar, LLC is proposing to construct a major solar electric generating facility under Section 94-c of the Executive Law (Section 94-c). This notice announces that on or about **February 11, 2022**, Brookside Solar will file an Application with the Office of Renewable Energy Siting (ORES or the Office), pursuant to Section 94-c seeking a Siting Permit from the Office authorizing the construction and operation of the Project. A notice of Intent to File an Application was previously published in accordance with 19 NYCRR §900-1.3(d) on or about November 10, 2021.

The Brookside Solar Project is a 100 megawatt (MW) solar photovoltaic electric generating facility proposed to be located in the Towns of Burke and Chateaugay in Franklin County, New York (the “Project”). The Project will span approximately 1,000 acres and plans to connect to the nearby Chateaugay-Willis 115kV transmission line. The Project is anticipated to positively impact both the environment and the local economy by reducing carbon dioxide emissions by an estimated 131,000 metric tons each year – the equivalent of taking approximately 28,000 cars off the road – and producing significant tax revenue and other economic benefits for the area. The Facility will include, but is not limited to, solar panels, access roads, substation, inverters, transformers, electrical collection lines, gen-tie line, and temporary construction staging and storage areas.

For more information about the Project please visit the Project website at <https://www.aes.com/brookside-solar-project> or contact Brookside Solar at:
