

Oak Ridge Solar

Oak Ridge Solar is a proposed 200-megawatt (MW) solar energy project to be located on 2,200 acres of privately owned land in Morehouse Parish. This low-cost, low-impact, environmentally sensitive clean energy project will help Louisiana build a cleaner energy future while creating economic benefits for local communities.

Project overview

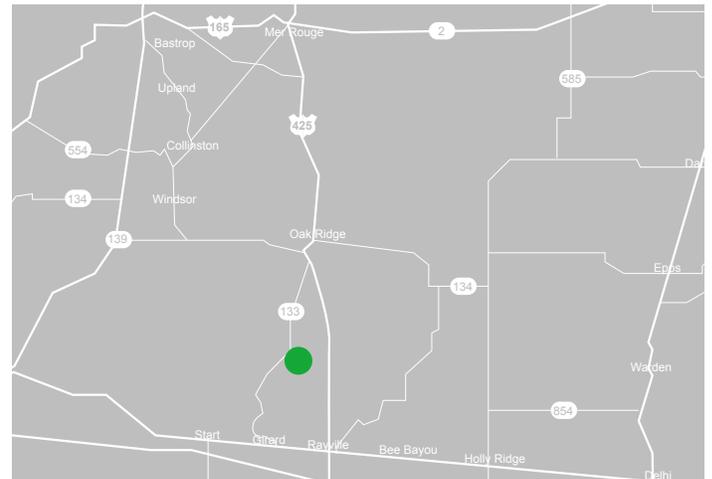

- Location: Morehouse Parish, Louisiana
- Nameplate system size: 200 MWac
- Total site size: 2,200 acres
- Total utilized acreage: 1,400 acres
- Installation type: photovoltaic solar arrays with single-axis tracker
- Construction start: Q4 2022
- Target commercial operation date: Q4 2023

Project benefits

The Oak Ridge Solar project provides a unique opportunity for a low-impact, high-value economic development in the parish:

- Estimated total investment in the project is \$245 million
- 325 jobs during peak construction
- 5 full-time employees to operate and maintain the project
- Will generate 470,000 MWh annually, enough clean energy to power 65,000 homes
- The clean electricity generated from the project will offset the equivalent of 333,000 metric tons of CO2 emissions annually

About AES

The AES Corporation (NYSE: AES) is a Fortune 500 global power company accelerating the future of energy. Together with our many stakeholders, we're improving lives by delivering the greener, smarter energy solutions the world needs. Our diverse workforce is committed to continuous innovation and operational excellence, while partnering with our customers on their strategic energy transitions and continuing to meet their energy needs today.
