

Since 1926, AES Indiana has been an active and invested utility partner to Central Indiana communities.

For more than 20 years, AES Indiana has been part of the AES Corporation, one of the world's largest power companies dedicated to improving lives in every community it serves. Today, we generate, transmit, distribute and sell electric energy across Indiana, adapting to meet the changing needs of residential, commercial and industrial customers.

528  
square miles

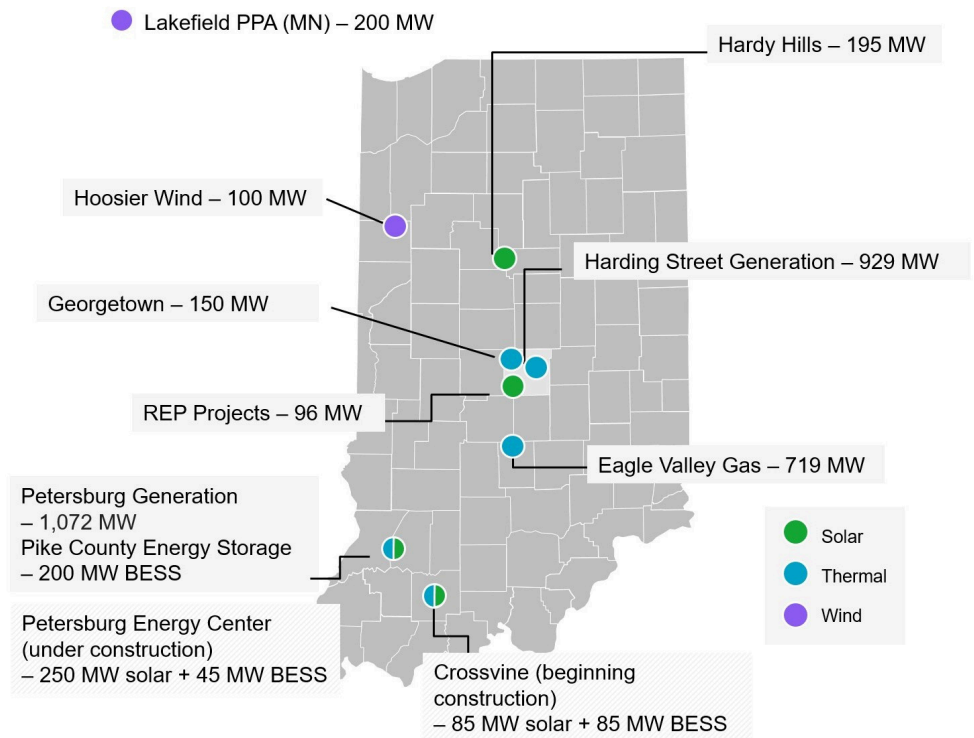

530,000  
customers

3,956  
MW of generation

870  
miles of transmission

Accelerating the future of energy, together.

What this means to us:

- Putting people first
- Providing safe, affordable and reliable energy
- Delivering greener, smarter energy solutions the world needs
- Leveraging our global presence to benefit local customers
- Embracing a collaborative spirit to deliver customer specific energy solutions
