

AES & McCarthy Building Companies in communities

At AES, we understand that our success as a company is only as strong as our partnerships within the communities in which we work. That's why we collaborate closely with communities to see how we can best work together to support sustainable social and economic development. We are proud to be partnering with an organization like McCarthy who share these same values.

Through McCarthy's national community engagement program, Heart Hats, they have donated over \$20 million and contributed thousands of volunteer hours since 2005. On past solar projects, their teams have renovated school playgrounds, built sheds for neighbors, landscape nursing homes, and much more.
